

Crop Renovation Program Certification Form

Natural Resources Conservation Service (NRCS) has included maintenance in the conservation plan and has provided me permission to remove cover according to the approved season, method, and purpose.

Season: _____

Purpose: (check one or more)

Method: _____
(burn, mow, etc.)

A. Competition Control

_____ Residue Load
_____ Rodent Infestation
_____ Weed Infestation

AREA IS INDICATED ON PROVIDED MAP.

B. Seedbed Preparation:

_____ Erosion Potential
_____ Terrain Characteristics

COMMENTS: _____

This is to certify that NRCS has conducted a field visit on my CRP land and recommends field burning as an acceptable management alternative. I understand that it is my responsibility to acquire and implement an acceptable burn permit and burn management plan. I fully understand that it is my responsibility to comply with local, state, and federal air pollution, fire regulations, and laws and any other variances pertaining to use and management of fires; that I am liable for damages resulting from the fire, and cost of suppression if the fire escapes from the designated areas; that it is my responsibility to obtain a fire prescription and burn plan that meets the requirements of the local fire district; that it is my responsibility to comply with this fire prescription and burn plan.*
